ve'n. This ii stresult demonstrates inc

\$15 per ton, and as it only costs about \$10

per ion to extract the silver, this wil

they refuse to reveal anything to th

while man, and the yet undiscovered de-posits will be obliged to wait for acciden-

the locality of the deposits.

The present stamp-mill has a daily capacity of about eight tons of rock, which,

with a moderate outlay, can be increased to 24 tons. At present there is only one battery, of five "heads," but it will soon

be reinforced by two additional batteries

THE WHEAT GROWING .- We undertand that the fine piece of wheat belonging to Mr. Fisher, noted a few weeks fortunate, but nothing more than could siderable percentage—and to the deprebe expected from the amount of rain we have been very numerous in the vicinity have had during the past few weeks. The of the mines during the last two seasons. rains have seemed to have commenced in the south and have kept pace with the of rock in which the sliver was visible to the naked eye. As the rock pile was not superintendent of the mill and reducing from the twenty-two tons of rock at least \$1,000 which result will doubtless be

CLOSED FOR THE SEASON .- Wm. H. Bunker, proprietor of the Cheneax mills, situated on Prentis Bay, on the North hereafter attained, as the pans are now shore, arrived in town Wednesday, on filled, and the silver from any rock which his way to Detroit to secure supplies for may now be run through the mill will the mill for the season. He sawed 3. its value. The rock which this company 500,000 feet, which he has on the dock now have in their stock pile was rathe. got out about 2,500,000 of logs last winter which he was not able to get to the mill.

The mine is being separated from the lean. The richest part of the vein at the Ontonation of the ve ready for shipment. Mr. Bunker also

clears up soon

that are dark and tricks that are vain."

SINGULAR ACCIDENT .- A singular and painful accident happened to a little son of L. D. Whitlock on Tuesday last. The little fellow was playing in the Richardson school house when he fell off from one of the seals. It was soon ascertained that he had broken his arm. Dr. Gerow was sent for, and rendered the necessary surgical services, leaving the boy as comfortable as could be expected under the

RUNAWAY .- On Monday last, while Mr. Frank Sammons was moving, a onehorse wagon was loaded with furniture. COFFEES, SPICES, and with a young man named John Me-Billion as driver, started for its destination. A fair start was not made before the hor-e concluded that he would mange things for bimself, and the usual result followed. A cupboard was wrecked, and the boy considerably damaged, however, not seriously.

HEAVY FINANCIAL TRANSACTION.—The copper at d lead. The vein, or veins, Lansing Republican says that on Tuesday | where revealed in the beds of Iron and Little Iron Rivers, in no two places strikes the state treasures refunded a tax-sale certificate on a piece of land that was bid off rise to many theories, the most common for one cent. One half of the description ly accepted of which is that it is all one was redeemed, by which the purchaser vein and has been thrown into its present was redeemed, by which the purchaser crooked shape by some geological con-was entitled to five mills tax and two mills vulsions in which the conglomerate of interest. The treasurer being unable to the region seems to have played an immake the exact change, magnanimously portant part. Whether the mining oppaid one cent, relying upon the generosity erations which are being carried on, or of the next legislature to provide means that will soon be magnified, will prove the "wising theory" to be correct or fallacious remains to be seen. The drift,

KICKED BY A HORSE.-A little boy about two and a half years of age, son of work of exploring and tracing the vein Albert Legault, living on Black River, The Indians have probably long known of this and other deposits of silver in the last Thu sday evening, inflicting a severe region of the Porcupine Mountains, but scalp would, turning the scalp back through fear of the anger of the Manitou. from the forehead about four inches. Dr. Perrin was sent for and dressed the wound, which left the little fellow feeling comparatively comfortable. The doctor thinks the boy will get along all right.

by some wandering white man. That silver, in paying quantities, exists at several points in Ontonagon county, is undoubted, but there seems to be great difficulty in obtaining a clue to

THE NORTHERN TRANSPORTATION COMPANY .- The question of whether or not the boats of the Northern Transportation Company will start out this season now seems to be definitely settled. By order of court the property is in the hands of a receiver, and all work in getting the boilts in readiness for business has been ordered stopped.

EXTRAORDINARY FISHING.—Tuesday seemed to be the great fishing day of the season so far. Several parties were fishing in the river and at its mouth, trolling and with hooks. The estimated catch during the day was not less than one thousand fish. We doubt if this, as the fishing with hooks, can be and another at the point of destination of a stamp-mill is at the falls of Iron River, about half a mile below the Ontonagon Company's mill. A mill erected at this point could be run by water power, and with hooks. The estimated catch during the day was not less than one thousand fish. We doubt if this, as the solution of a stamp-mill is at the falls of Iron River, about half a mile below the Ontonagon Company's mill. A mill erected at this point could be run by water power, and with hooks. The estimated catch during the day was not less than one thousand fish. We doubt if this, as the about \$30,000, and if the rock averages about \$30,000, and if the rock averages of 30,000, and if the rock averages of 30,000, and the mill could handle 25 or 30 tons of rock every day, say make a power of a stamp-mill is at the falls of Iron River, about a stamp-mill is at the falls of Iron River, about a stamp-mill is at the falls of Iron River, about a stamp-mill is at the falls of Iron River, about a stamp-mill is at the falls of Iron River, about a stamp-mill is at the falls of Iron River, about a stamp-mill is at the falls of Iron River, about a stamp-mill is at the falls of Iron River, about a stamp-mill is at the falls of Iron River, about a stamp-mill is at the falls of Iron River, about a stamp-mill is at the falls of Iron River, about a stamp-mill is at the falls of Iron River, about a stamp-mill is at the falls of Iron River, about a stamp-mill is at the falls of Iron River, about a stamp-mill is at the falls of Iron River, about a stamp-mill is at the falls of Iron River, about a stamp-mill is at the falls of Iron River, about a stamp-mill is at the falls of Iron River, about a stamp-mill is at the falls of Iron River, about

in getting out a sufficient quantity of their vein rock for a test at the mill.

Since writing the above I have just met Mr. John Burt, of Detroit, who showed me a piece or "button" of silver, obtained by him from the Iron River region 25 years ago, while he was engaged in making the linear surveys of that country, but as there was no quantity of silver-bearing rock found the discoverey was considered to be of no value, and was not even noticed in the field notes of the surveyors. Mr. Burt has preserved his spec-imen until this time, and now exhibits if

Dangerous Building.

(To the Editor.) The school officers of our graded schoo isited the school building yesterday (Friday) to inquire into its safety. They ound, in my opinion, an unsafe building. The principal having arrived, it is deermined to commence the school on Mooday next without any repairs. Is this right to do, where so many lives will e placed in jeopardy? FELIX.

School Matters. The school board have completed their business as far as securing a supply of teachers is concerned. They have secured tons of the Outonagon Company's rock, Rochester, N. Y., as principal, while Mr. two years ago. and has been exposed to Mrs. Buck will have charge of the primaer, already commenced to grow. We have also heard other complaints of the summer nature. This is certainly very un
